Objective

Career-changer with a background in arts and music education, now pursuing a career in software development and quality assurance. Experienced in UI/UX design, front-end development, and QA testing with Python, JavaScript, and modern web technologies. Skilled at adapting quickly to new challenges, collaborating in agile teams, and applying creativity to problem-solving. Passionate about building user-centered digital solutions and contributing to innovative, quality-driven projects.

Experience

Software Development Intern - Flo Labs R&D

Aug 2025 - Present

- Designed and implemented 10+ UI/UX features, improving engagement by 50% using HTML, CSS, JavaScript, PHP, and TypeScript.
- Supported back-end development with Python (FastAPI).
- Assisted in QA testing and documentation to ensure product quality.
- Reduced bug turnaround time by approximately 20% through structured QA testing.
-

LLM Trainer (Portuguese & English) - Remote

Aug 2024 - Present

- Reviewed and corrected AI-generated prompts and responses.
- Ensured linguistic accuracy and cultural relevance in both languages.

Music Educator (Voice, Piano, Violin, Viola) - Various Institutions

2018 - 2025

- Delivered lessons across multiple instruments; strengthened communication, adaptability, and teamwork for agile software teams.

Hospitality - Cook & Baker Roles

2016 - 2018

Cantinho do Avillez - Gleba Moagem e Padaria - Lagoas Park Hotel

- Food preparation, pastry, and bread-making; developed precision and time management.

Technical Skills

Frontend Development

- HTML5
- CSS3
- JavaScript (ES6+)
- React
- Next.js

Design & Layout

- UI/UX Design
- Responsive Design
- Wireframing
- Accessibility (WCAG)
- Component Systems

Tools & Workflows

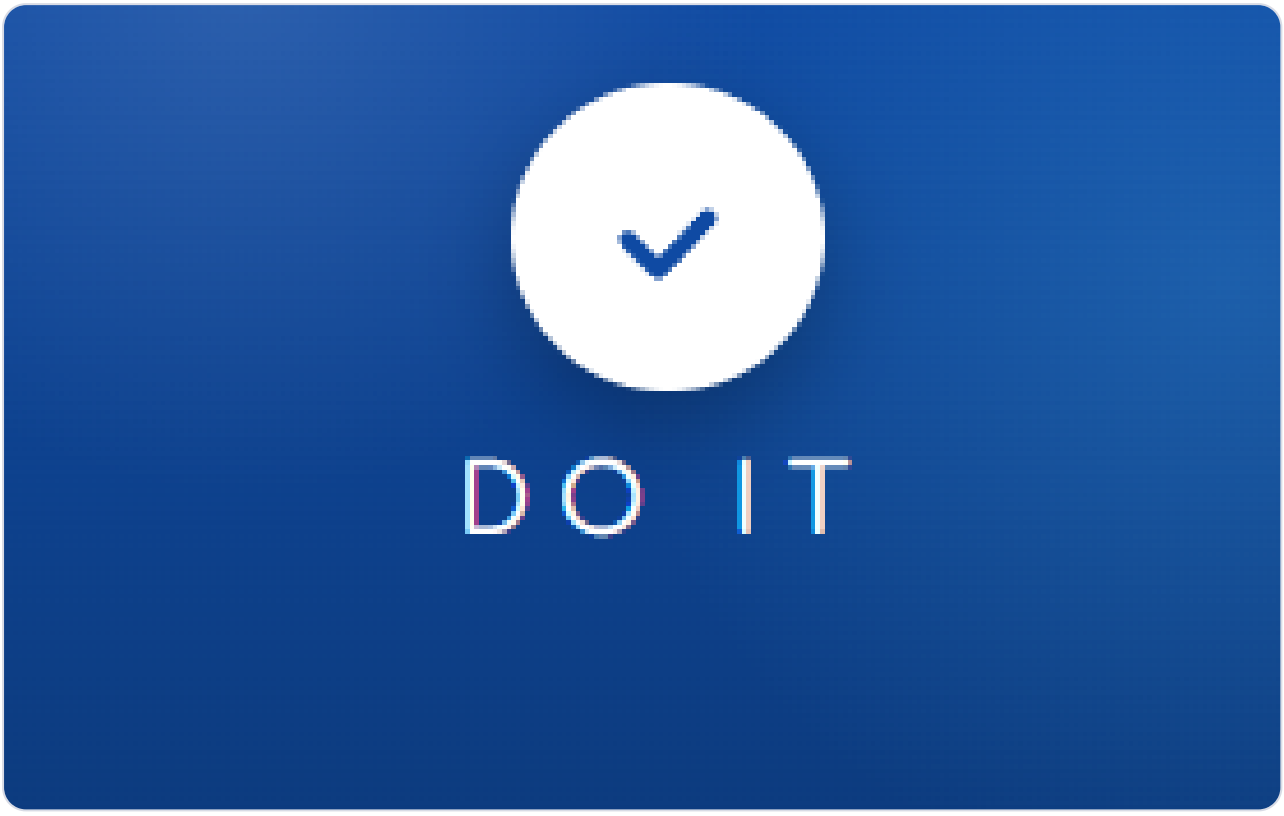
- Git / GitHub
- GitHub Actions
- QA Testing
- Postman
- Python Automation
- Supabase

Key Skills

JavaScript | React | Next.js | UI/UX Design | Responsive Design | QA Testing | API Testing | GitHub Actions | Python | Supabase

Projects

To-Do List App



- React + TypeScript to-do app using Firebase and Google Auth.

Experience

Software Development Intern — Flo Labs R&D

Sep 2025 – Present

- Designed and implemented 10+ UI/UX features improving engagement by 50% using HTML, CSS, JavaScript, PHP, TypeScript.
- Supported back-end development with Python (FastAPI).
- Assisted in QA testing & documentation to ensure product quality.
- Reduced bug turnaround time by ~20% through structured QA testing.

LLM Trainer (Portuguese & English) — Remote

Aug 2024 – Present

- Reviewed and corrected AI-generated prompts and responses.
- Ensured linguistic accuracy and cultural relevance in both languages.

Music Educator (Voice, Piano, Violin, Viola) — Various Institutions

2018 – 2025

- Delivered lessons across multiple instruments; strengthened communication, adaptability and teamwork for agile software teams.

Hospitality — Cook & Baker Roles

Skills

Programming & Development

Python (FastAPI, boto3) · JavaScript (ES6+, TypeScript) · PHP · HTML5 · CSS3 · WordPress

QA & Testing

Functional & Non-functional · Unit, Integration, System, Acceptance · Test Case Design · Bug Reporting

Cloud & DevOps

AWS (Lambda, S3, API Gateway, IAM, CloudWatch) · Docker · Git/GitHub · CI/CD (GitHub Actions)

Tools & Frameworks

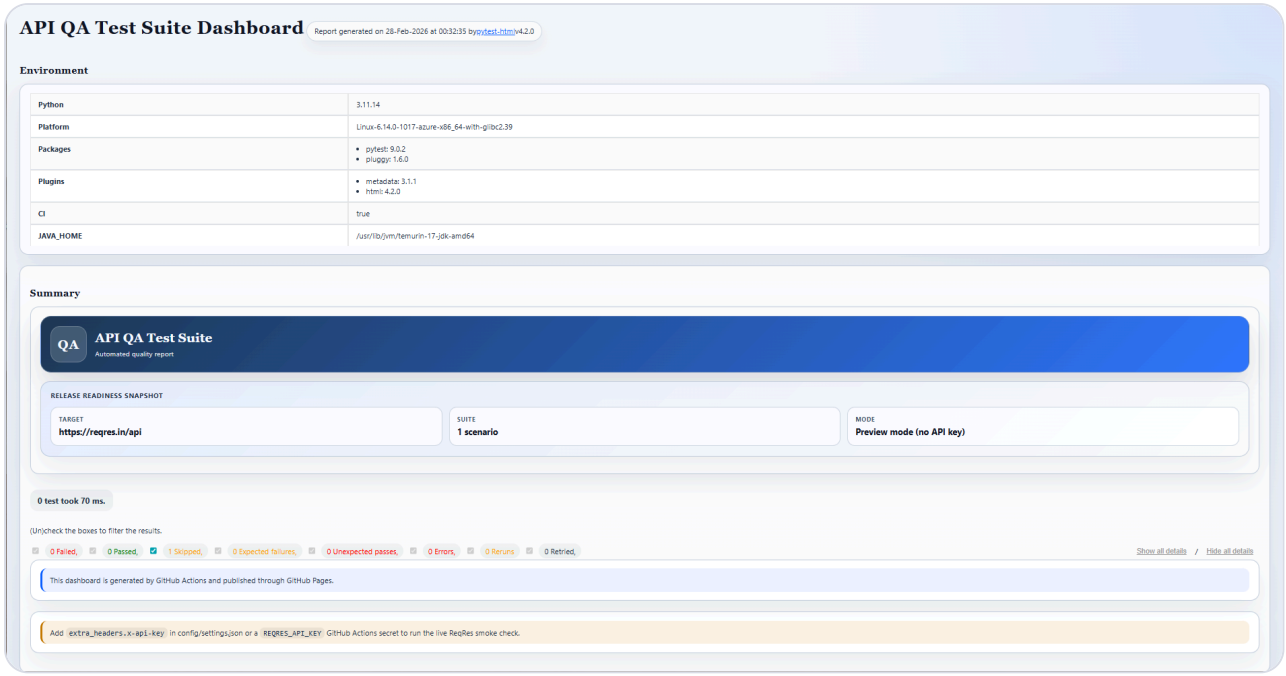
Postman · Pytest · Microsoft Word & Excel

Languages

Portuguese (Native) · English (Fluent)

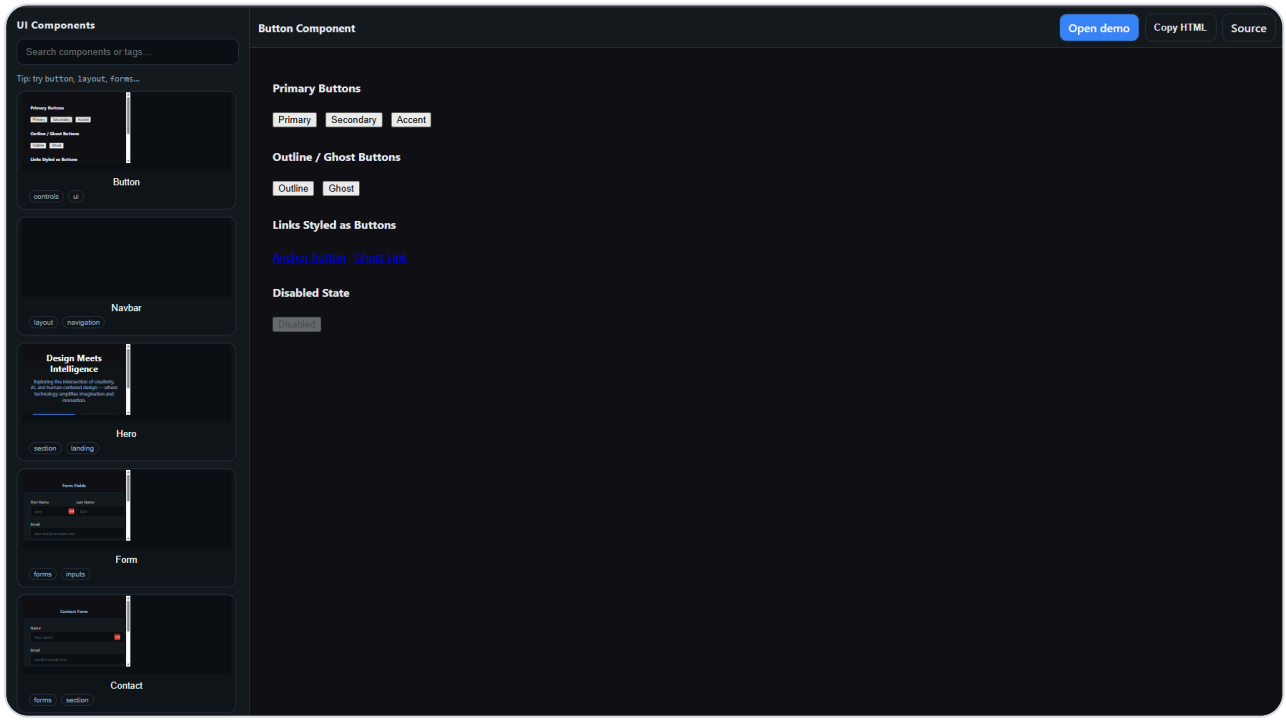
- Built with HTML, CSS, and JavaScript; deployed on GitHub Pages with CI/CD via Actions.

API QA Test Suite



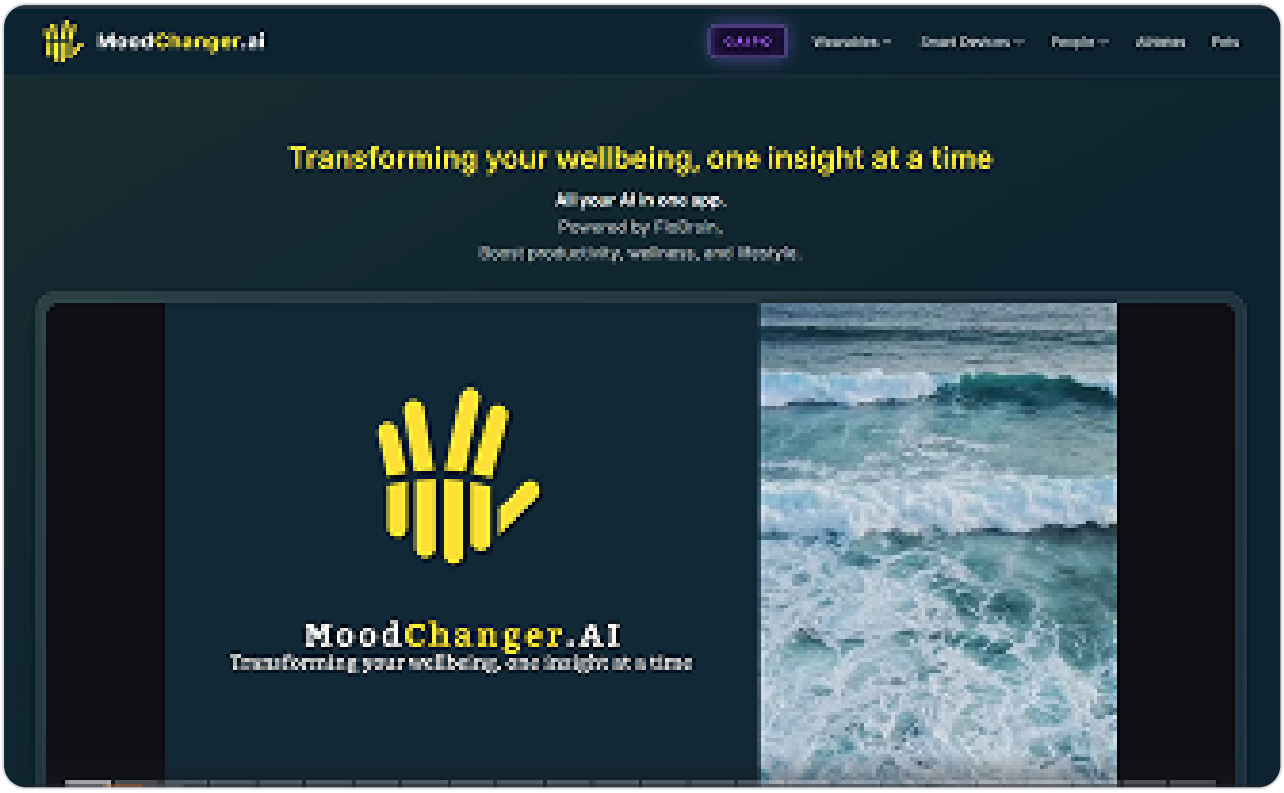
- Automated API checks with readable status and report links.

UI Components Showcase



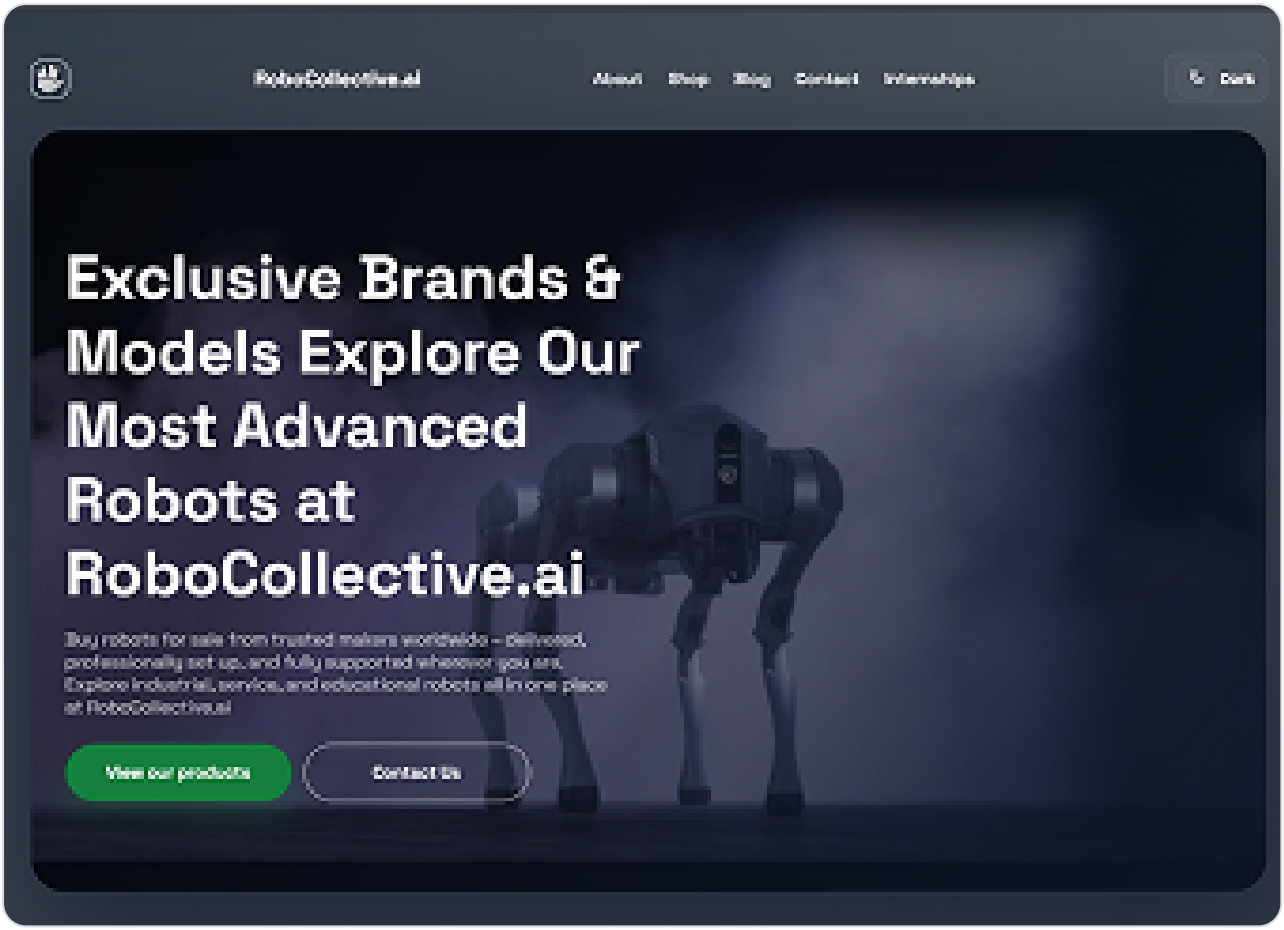
- Component gallery showcasing reusable UI patterns.

MoodChanger.ai



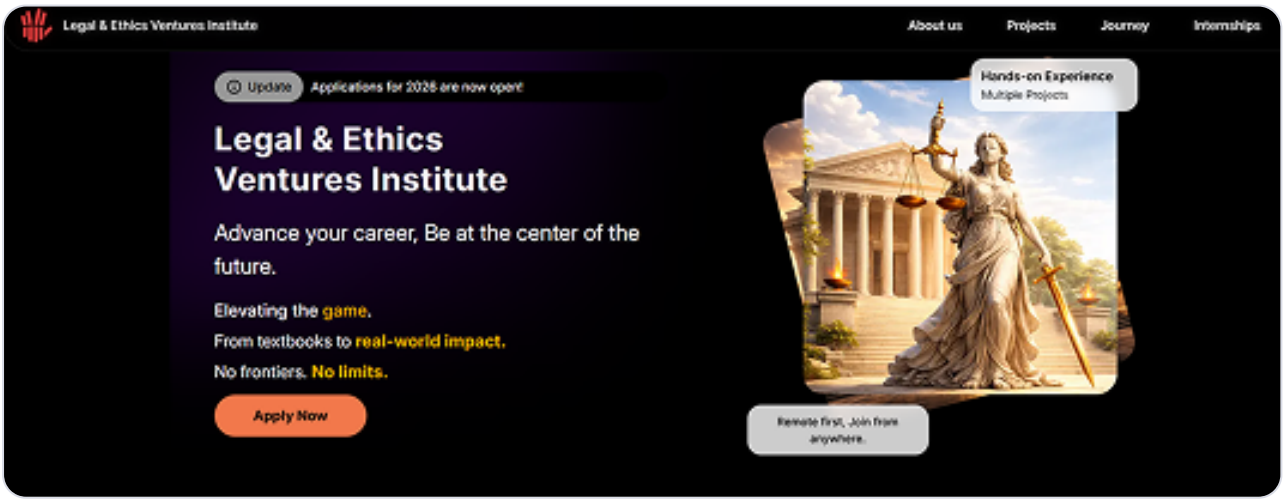
- Website for a wellness platform combining neuroscience, wearable sensors, and adaptive support experiences.

RoboCollective.ai



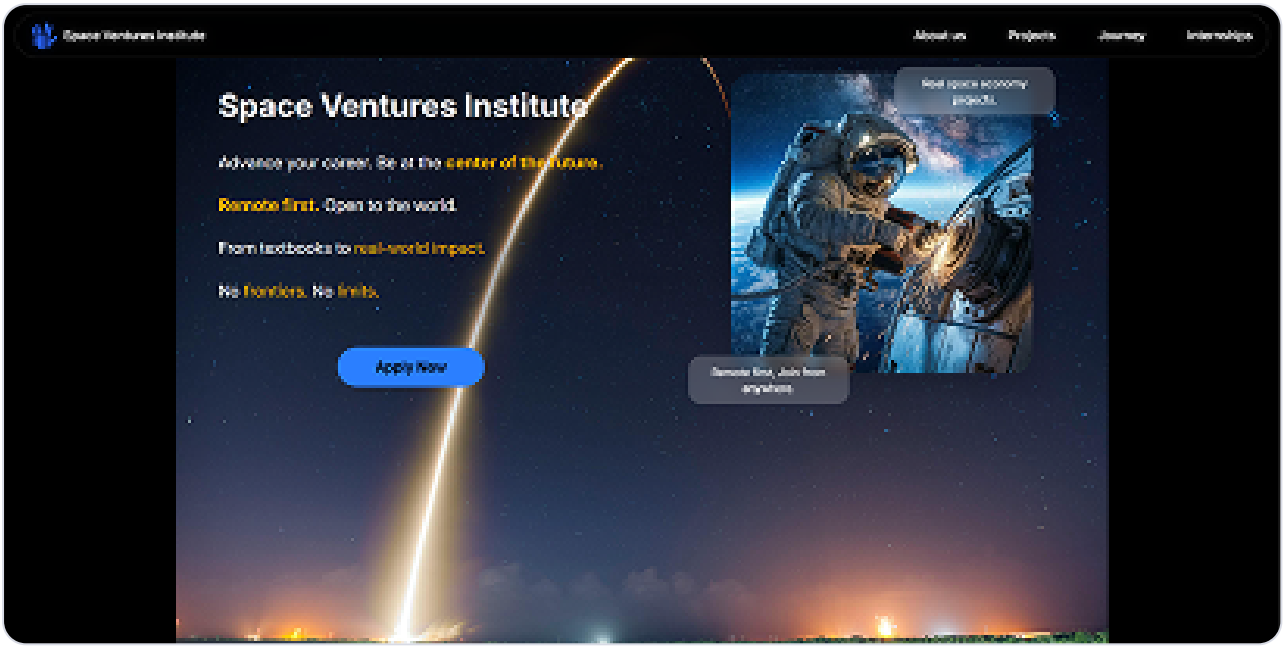
- Built from scratch with HTML, CSS, JavaScript, and Python automations supporting the content workflow.

Legal Ventures Institute



- Public-facing site for Legal Ventures Institute with clear service overview and contact flow.

Space Ventures Institute



- Public-facing website for Space Ventures Institute focused on venture and innovation content.

Courses & Certifications

- Python Software Language - Programming Hub (Aug 2025)
- Fundamentals of Quality Assurance Engineer - Udemy (Jul 2025)
- Foundations of Software Testing and Validation - University of Leeds (Jul 2025)
- Website design - (Fev 2026)

Education

Diploma in Viola d'Arco (8th Grade) - Final 16/20

2006 - 2018

Intensive training in viola, voice, choir, and chamber/orchestral performance.

Kitchen Management & Production (Level V) - Final 16/20

Escola de Hotelaria e Turismo de Setúbal · 2015 - 2016

Science & Technology Track (Biology & Geology) - Final 15/20

Escola Secundária de Vergílio Ferreira · 2013 - 2015

Key Strengths

- **Frontend Engineering** - building responsive interfaces with HTML, CSS, JavaScript, React, and Next.js.
- **UI/UX Execution** - turning design ideas into accessible, component-based user experiences.
- **Quality Assurance** - structured QA and API testing to catch defects early and reduce regressions.
- **Performance and Reliability** - focus on clean code, cross-browser consistency, and stable releases.
- **Automation and CI** - using Python scripts and GitHub Actions to speed up validation and delivery.
- **Cross-Functional Collaboration** - clear communication with product, design, and engineering teams in Portuguese and English.

Additional Information

- **Phone:** +351 962046821.
- **Education:** 12th Grade, Secretarial & Administrative Work (Secondary Education, Level 3).
- **Languages:** Portuguese (native) and English (oral, written, reading: very good).
- **Driver's License:** Light Vehicles.

Availability, Preferences & Interests

- **Availability:** Immediate availability, full-time work.
- **Work Preferences:** Fixed-term contract, daytime schedule.
- **Mobility:** Available to travel and relocate within Portugal.
- **Professional Interests:** Web Developer, Front-End Developer.
